SIMULTANEOUS INTERPRETATION (SI)

Are you interested in live-interpreting from French to English and vice-versa (or any other languages)?

Baldwin AV offers comprehensive SI solutions for your event.

Baldwin AV can provide the following:

- Wireless headsets (headphones) allowing audience members to listen from anywhere in the room in any language
- Interpret a multitude of languages including French, English and Indigenous languages
- Set-up and equipment for real-time interpretation
- Radio Frequency (RF) or the more secure Infrared (IR) technology
- Multi-room receivers allow movement between rooms
- Interpretation equipment up to current ISO standards
- Audio compressors and limiters
