B Virtual CONFERENCES

Are you looking for a solution for your (previously) in-person conference? Did you know that you can host your conference online?

Baldwin AV can help you leverage networking, plenaries, and online registration capabilities that will save you time and money. We can help manage everything from pre-recorded and edited videos, Q&A, or even breakout sessions that run concurrently.

Baldwin AV can provide the following:

- Import registration details and contact attendees
- Host plenary as well as concurrent breakout sessions or workshops
- Simultaneous interpretation and video playback in live sessions
- Q&A sessions with live audience polling
- Multi-device and platform integration (computers, phones, etc.)
- Incorporation of presentation files and other documents
- Pre-recorded video as well as live recording capabilities
- Live, real-time technical support staff
- Pre-event testing
