B Virtual WEBCASTING

Do you need a replacement for your displaced in-person meeting or company announcement? Would you like the ability to present to anyone in the world at anytime?

Webcasts provide you a virtual solution for your sales presentation, annual shareholder meeting, or e-learning training.

Baldwin AV offers HD video webcasting in a multitude of languages with the ability to tandem this with virtual meetings for a more hybrid approach. Seamlessly present to individuals in the room or across the globe without interruptions using our webcast solutions.

Baldwin AV can provide the following:

- Full HD video and audio streaming
- Ability to incorporate virtual meetings
- Live polling, live moderated Q&A, surveys, and AGM voting add-on features
- Adaptive bit-rate to improve streaming for slower connections
- Incorporation of presentations (PowerPoint, Keynote, Prezzie, Sli.do) and other files
- Broadcast to your Facebook and YouTube live accounts
- Closed captioning, multi-lingual broadcasting, simultaneous interpretation
- Pre-recorded video as well as live recording capabilities
- Live, real-time technical support staff & pre-event testing
- Custom URL and webcast page with company branding
- Custom mutli-view layouts, lower third name display, and branded virtual backgrounds
- On-line registration forms & password protection
